SUMMARY

Detail-oriented Data Analyst with a background in Electronics & Communication Engineering and hands-on project experience in data visualization. Skilled in SQL, Power BI, Tableau, and Excel for data cleaning, analysis, and reporting. Strong analytical mindset with proven ability to build and evaluate data-driven models; adaptable and eager to apply technical skills in an IT/data analytics role.

TECHNICAL SKILLS

- **Programming & Analysis**: MS Excel, SQL, Python(Basic), Data Entry & Cleaning.
- **BI & Visualization**: Power BI, Tableau, MATLAB (Image Processing).
- **Data&ML**: NumPy, Pandas, TensorFlow, PCA-based Dimensionality Reduction, Anomaly Detection.
- **Tools & Platforms**: MS Word, PowerPoint, LAN/WAN Networking Fundamentals.

PROJECTS

Target Detection Using AI/ML in Hyperspectral Image Processing — *Published, IJSRCSEIT, April 2025*

- Built a Python and TensorFlow pipeline for anomaly detection in hyperspectral image data, applying PCA-based dimensionality reduction to reduce feature space while preserving signal accuracy.
- Performed patch creation, data scaling, and preprocessing to prepare high-dimensional data for deep learning model training.
- Recorded and organized model training results in Excel, using pivot tables, formulas and charts to easily compare performance across different test runs.

Power BI HR Analytics Dashboard

- **Developed an interactive Power BI HR Analytics Dashboard** to analyze headcount, salary, gender, age, department, employee ratings, and joining trends using KPIs, charts, tables, and slicers.
- **Performed data analysis and visualization using Power Query and DAX**, creating meaningful insights on workforce distribution, salary patterns, departmental performance, and employee ratings for business decision-making.

INTERNSHIP EXPERIENCE

Python Development Intern — Chatrapathi Greentech Softwares Pvt. Ltd. *Jun 2024 – Jul 2024*

- Completed a short-term project focused on Python development, gaining hands-on experience with core programming tools and workflows.
- Practiced efficient coding, debugging, and basic project management under mentorship.

CERTIFICATIONS

- MATLAB Image Processing Onramp Certification — MathWorks, September 2023 (image filtering, transformation, and analysis)
- Industrial Visit — BSNL, Rajiv Gandhi Memorial Telecom Training Centre, Chennai, August 2023 (telecom & networking infrastructure)
- Completed a hands-on **Power BI Workshop** covering data cleaning, data transformation, visualization, and dashboard creation. Gained practical experience in **Power Query, DAX, KPI dashboards, charts, filters, and interactive reports** using real-world datasets.

EDUCATION

B.E, Electronics & Communication Engineering — J.N.N Institute of Engineering, Chennai *Cumulative 2021 – 2025 GPA: 7.3 / 10*

LANGUAGES

Fluent: Telugu, Hindi | Conversational: English, Tamil
